

BIG ETHEL'S RIVERDALE HOROSCOPES

Happy Birthday, Pisces! (February 19 – March 20)

For your birthday month, oh fishy one, don't be afraid to go out and have some fun! Get out there and live! Laugh danger right in the face! Unless that face is the face of a bear. Then, play dead.

Aries (March 21 – April 19)

Try to stay out of trouble this month. You're likely to rub someone the wrong way. So if anyone asks you for a backrub, say no.

Taurus (April 20 – May 20)

This will be a good month for you, friend! Your stubborn ways will get you ahead of the game. Maybe try asking that hottie out to the spring fling dance; he or she is sure to say yes! Or no. Either way, give it a shot!

Gemini (May 21 - June 21)

I know how you love getting into wacky hijinks, but ease up on the tricks. Wait for April Fools Day, then go nuts!

Cancer (June 22 - July 22)

Despite your crabby disposition, you're going to be in a great mood this month! The positivity all around you will attract new possible relationships! Just try not to pinch them.

Leo (July 23 - August 22)

Hail to the king (or queen!) This month you're in control. You'll be center stage! It's your turn to shine! Be sure to thoroughly clean your pores.

Virgo (August 23 - September 22)

You tend to be very outgoing and impulsive. Use your spontaneity wisely - you could end up at the head of the class! Of course, you could also end up in detention ...

Libra (September 23 - October 23)

You've got a hectic few weeks ahead of you, Libra. Friends and classmates will be looking for help non-stop. It will seem as if they can't breathe without you, actually, but your hard work and help will pay off! So will a nap.

Sagittarius (November 22 - December 21)

You often find yourself lost and wandering around aimlessly, Sagittarius. Has no one told you about Google Maps?!

Scorpio (October 24 - November 21)

You're going to find yourself falling for someone you never thought you would this month. Give love a chance! Throw caution to the wind! This could be that one special person you've been waiting for! Of course they might not like you very much in return; that all depends on what their horoscope says.

Capricorn (December 22 - January 19)

Let loose, Capricorn. Your studious nature often makes you reliable, great in class and ... very, very boring. Leave the math at home and kick back with friends! Just make sure they're not just using you to copy your homework.

Aquarius (January 20 - February 18)

Try not to cry over spilled milk (or water) this month, sweet Aquarius. Unless of course, it's boiling hot and spilled upon yourself. In that case, cry your eyes out and then seek medical help immediately.
